Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, BJA seeks to continue developing a network of drug data research centers to combat the overdose crisis, building on the first award made in 2022. BJA anticipates making up to two awards to two accredited institutions of higher learning to support expanding an existing statewide drug data repository into a regional drug data research center (“regional data center”) that will promote the collection, analysis, research, and dissemination of information to help combat the surge in fatal and nonfatal overdoses from opioids, stimulants, and other substances. Institutions awarded under this solicitation and their respective data research centers will work with the FY 2022 Drug Data Research Centers to Combat the Overdose Crisis (DDRC)-funded center at the University of Alabama and will serve as both a model and technical advisors to translate this model to other regions in the United States.

Statutory Authority

Department of Justice Appropriations Act, 2023 (Pub. L. No. 117-328; 136 Stat. 4459, 4535).

Specific Information

The nation’s overdose and substance use disorder crises threaten the health and wellbeing of individuals who misuse drugs and their families and impact the safety of communities.

Provisional data from the Centers for Disease Control and Prevention’s National Center for Health Statistics indicate that there were nearly 108,000 drug overdose deaths in the United States during 2022, surpassing all prior years. For more information, visit:

<https://www.cdc.gov/nchs/nvss/vsrr/drug-overdose-data.htm>.

Data from across multiple sectors and systems are critical to develop, monitor, and evaluate effective strategies to combat the overdose crisis, as well as the rising number of deaths related to misuse of opioids, stimulants, and other substances. To that end, this solicitation seeks to expand an existing statewide drug data repository into a regional data center. In order to establish and be considered a regional data center, the expansion must include multiple contiguous states.

The core data that BJA requires be collected from each participating state to expand the regional data center include: overdose deaths, prescription drug monitoring program data, drug-related emergency medical services (EMS) encounters, drug-related emergency department visits, and drug arrests. To help policymakers and practitioners respond quickly to emergent patterns, the expansion may also include, but are not limited to, additional data such as treatment provision, toxicology test results, and court disposition data.

To enhance capacity to collect, analyze, research, and disseminate drug data in other regions across the United States, the additional data centers awarded through this solicitation will

expand the regional data center network and serve as models for other data centers to develop similar approaches for data sharing and creation of additional regional drug data research centers across the United States.

Goals, Objectives, and Deliverables

Goals

The goal of this program is to promote the research, collection, analysis, and dissemination of overdose-related information to reduce fatal and nonfatal overdoses, promote public safety, and support prevention, harm reduction, treatment, and recovery services, creating a network of regional drug data research centers that serves as a model for other regions in the United States.

Objectives

An applicant should address all the Goals, Objectives, Deliverables in the time task plan attached to the application.

Objectives of this program are to:

Expand the existing statewide drug data repository into a regional data center to produce and disseminate web-based, real-time, actionable multisector drug data.

Enhance the capacity to utilize, as applicable, the open-source, regional drug data research center architecture developed by the University of Alabama.

Facilitate electronic information sharing across multiple agencies across state lines that must include, but not be limited to, data on overdose deaths, drug-related EMS encounters, prescription drug monitoring program data, drug arrests, and drug-related emergency department visits. This effort should be complementary to, not duplicative of, other information sharing.

Encourage the sharing of additional information from law enforcement, prosecutions, jail stays, corrections (institutional and community), public health, treatment provision, and/or courts/pretrial services across states.

Support collaboration among public health, behavioral health, criminal justice, and first responder agencies to use these data to inform strategies and coordinate efforts.

Expand research to enhance knowledge to more effectively address the overdose crisis, particularly in populations who have been historically underserved, marginalized, and adversely affected by persistent poverty and inequality.

Deliverables

Create a regional drug data research center that facilitates web-based, real-time, multisector data dissemination across multiple agencies across state lines.

Document utilization of regional drug data for policy and strategy development.

Develop or enhance the regional data center’s capacity to provide unsolicited reports to authorized individuals or entities.

Pilot and provide feedback, including written documentation, on the regional data center’s architecture as well as the training and technical assistance resources developed by the University of Alabama, the FY 2022 DDRC award recipient.

Work collaboratively with the University of Alabama and assist in building knowledge and capacity for the field in the area of regional drug data research centers.

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work’s results, as discussed in the "Application and Submission Information" section.

Evidence-Based Programs or Practices

OJP strongly encourages the use of data and evidence in policymaking and program development for criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the projects and activities funded under this solicitation. For additional information and applicable documentation to be included in the application, see the [OJP Grant Application Resource Guide](#) section entitled “Information Regarding Potential Evaluation of Programs and Activities.”

Digital Trust

Technological devices, artificial intelligence, predictive analytics, and other data-driven solutions ("Technological Enhancements") are increasingly used to augment crime reduction strategies and efforts. Care must be taken to assess and address any potential harm that could be activated by these solutions to ensure privacy, civil rights, and civil liberties are protected. Applicants proposing to utilize grant funds to support technological enhancements directly or via

training and technical assistance should address the tenants of digital trust such as:

How the technology will be carefully implemented through training of personnel and the setting and enforcement of policies governing its use to ensure that it contributes to positive outcomes for public safety, the community, and/or the criminal justice system.

How to Apply

Registration: Before submitting an application, all applicants must register with the System for Award Management (SAM). You must renew and validate your registration every 12 months. If you do not renew your SAM registration, it will expire. An expired registration can delay or prevent application submission in Grants.gov and JustGrants. Registration and renewal can take up to 10 business days to complete.

Submission: Applications must be submitted to DOJ electronically through a two-step process via Grants.gov and JustGrants.

Step 1: After registering with SAM, the applicant must submit the **SF-424** and **SF-LLL** in Grants.gov at <https://www.grants.gov/web/grants/register.html> by the Grants.gov deadline. **Submit the SF-424 and SF-LLL as early as possible, but no later than 48 hours before the Grants.gov deadline.** If an applicant fails to submit in Grants.gov, they will be unable to apply in JustGrants.

Step 2: The applicant must then submit the **full application**, including attachments, in JustGrants at [JustGrants.usdoj.gov](https://www.justgrants.usdoj.gov) by the JustGrants deadline.

Within 24 hours after receipt of confirmation emails from Grants.gov, the individual in Section 8F of the SF-424 will receive an email from DIAMD-NoReply@usdoj.gov with instructions on how to create a JustGrants account. Register the Entity Administrator and the Application Submitter with JustGrants as early as possible but no later than 48-72 hours before the JustGrants deadline. Once registered in JustGrants, the Application Submitter will receive an emailed link to complete the rest of the application in JustGrants. The Entity Administrator also will need to log into JustGrants to review and invite the applicant's Authorized Representative(s) before an application can be submitted.

Submit the complete application package in JustGrants at least 24 – 48 hours prior to the JustGrants deadline. Some of the application components will be entered directly into JustGrants, and others will require uploading attached documents. Therefore, applicants will need to allow ample time before the JustGrants deadline to prepare each component. Applicants may save their progress in the system and revise the application as needed prior to hitting the Submit button at the end of the application in JustGrants.

For additional information, see the “How to Apply” section in the [OJP Grant Application Resource Guide](#) and the [DOJ Application Submission Checklist](#).

Submission Dates and Time

The **SF-424** and the **SF-LLL** must be submitted in Grants.gov by May 01, 2023 8:59 PM ET

The **full application** must be submitted in JustGrants by May 10, 2023 8:59 PM ET

OJP urges applicants to submit their Grants.gov and JustGrants submissions prior to the due dates with sufficient time to correct any errors and resubmit by the submission deadlines if a rejection notification is received. To be considered timely, the **full application** must be submitted in JustGrants by the JustGrants application deadline. Failure to begin the SAM.gov, Grants.gov, or JustGrants registration process in sufficient time (i.e., waiting until the date identified in this solicitation) is not an acceptable reason for late submission.

Experiencing Unforeseen Technical Issues Preventing Submission of an Application

OJP will only consider requests to submit an application after the deadline when the applicant can document that a technical issue with a government system prevented application submission.

If an applicant misses a deadline due to unforeseen technical issues with SAM.gov, Grants.gov, or JustGrants, the applicant may request a waiver to submit an application after the deadline. However, the waiver request will not be considered unless it includes a tracking number generated when the applicant contacts the applicable service desks to report technical difficulties. Tracking numbers are generated automatically when an applicant emails the applicable service desks; and for this reason applicants are encouraged to email the appropriate service desk, even if they also intend to call the service desk for phone support. Experiencing wait times for phone support does not relieve the applicant of the responsibility of getting a tracking number.

An applicant experiencing technical difficulties must contact the associated service desk indicated below to report the technical issue and receive a tracking number:

- SAM.gov - contact the SAM Help Desk (Federal Service Desk), Monday – Friday from 8 a.m. to 8 p.m. ET at 866-606-8220.
- Grants.gov - contact the Grants.gov Customer Support Hotline, 24 hours a day, 7 days a week, except on federal holidays, at 800-518-4726, 606-545-5035, or support@grants.gov.
- JustGrants - contact the JustGrants Service Desk at JustGrants.Support@usdoj.gov or 833-872-5175, Monday – Friday from 7 a.m. to 9 p.m. ET and Saturday, Sunday, and Federal holidays from 9 a.m. to 5 p.m. ET.

If an applicant has technical issues with SAM.gov or Grants.gov, the applicant must contact the OJP Response Center at grants@ncjrs.gov within **24 hours of the Grants.gov deadline** to request approval to submit after the deadline.

If an applicant has technical issues with JustGrants that prevent application submission by the deadline, the applicant must contact the OJP Response Center at grants@ncjrs.gov within 24 hours of the JustGrants deadline to request approval to submit after the deadline.

Waiver requests sent to the OJP Response Center must -

- describe the technical difficulties experienced,

- include a timeline of the applicant's submission efforts (e.g., date and time the error occurred, date and time of actions taken to resolve the issue and resubmit; and date and time support representatives responded),
- include an attachment of the complete grant application and all the required documentation and materials,
- include the applicant's Unique Entity Identifier (UEI), and
- include any SAM.gov, Grants.gov, and JustGrants Service Desk tracking numbers documenting the technical issue.

OJP will review each waiver request and the required supporting documentation and notify the applicant whether the request for late submission has been approved or denied. An applicant that does not provide documentation of a technical issue or that does not submit a waiver request within the required time period will be denied.

For more details on the waiver process, OJP encourages applicants to review the “Experiencing Unforeseen Technical Issues” section in the [OJP Grant Application Resource Guide](#).

Application Review Information

Review Criteria

Merit Review Criteria

Applications that meet the basic minimum requirements will be evaluated by peer reviewers on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (15%) - evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (40%)- evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (25%) - evaluate the applicant's administrative and technical capacity to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (10%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (10%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those priority areas already mentioned, if applicable), available funding, past performance, and the extent to which the Budget Web-Based form accurately explains project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant entity. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record of performance, integrity, and business ethics, OJP checks whether the applicant entity is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant entity that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important Note on FAPIIS: An applicant may review and comment on any information about its organization that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant entity.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.
