#### **Program Description**

#### Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, BJA seeks to support a collaborative partnership between two or more universities to develop, design, and pilot a virtual reality training program designed to improve law enforcement interactions with all individuals, with an emphasis on deescalation tactics. New technologies, including virtual reality systems designed for use by police, allow for multiparticipant engagement and can be integrated into training programs focused on improving law enforcement encounters. Universities are required to partner to carry out the activities of the federal award; however only one applicant can apply.

Technologies designed for law enforcement trainings to model reality virtually should enable police to prepare for the situations they may face in communities while providing officers an opportunity to practice decision-making and de-escalation techniques in a safe and controlled environment. These technologies also allow law enforcement to share their world in a virtual setting with critical partners interested in learning more about the role of public safety. Adequately and effectively preparing law enforcement to engage with every member of the community results in greater public safety outcomes for all and increased community trust.

#### **Statutory Authority**

Awards in this solicitation will be made under the Department of Justice Appropriations Act, 2023 (Pub. L. No. 117-328; 136 Stat. 4459, 4535).

#### **Specific Information**

This program seeks applications for grant funds from institutions of higher education to develop training via the utilization of fully immersive, virtual reality-based technology. The training should address topics to include improving police responses to individuals in crisis and other training areas that would benefit from utilization of a virtual reality-based technology.

#### Goals, Objectives, and Deliverables

#### Goals

This program seeks applications from a single university entity partnering with at minimum one other university to develop and pilot customized, multiparticipant, fully immersive, virtual and/or augmented reality-based training technology. The goal of the

program is to develop a virtual reality regime that supports the implementation of emerging technologies utilized in scenario-based police training. Training should include evidence-based principles and should be designed to ensure the safety of police officers and the communities they serve.

#### **Objectives**

Applicants should address all the objectives listed below in the Goals, Objectives, Deliverables, and Timeline web-based form.

- Describe current capacity and experience leveraging new tools based on emerging virtual reality technologies to enhance and improve outcomes for law enforcement. Current capacity should include a description of each university partner and their respective experience, as well as an overview of the partnership and how it will contribute to the success of the project.
- 2. Provide an overview of the process for developing fully immersive, multiparticipant, customized virtual reality technology designed to allow participants to engage with multiple users in virtual scenarios. This involves the design and development of complex situations law enforcement regularly encounters. The developed training should allow participants to communicate with one another in the virtual world and interact within the scenario using the issued equipment. The training must use evidence-based principles. The applicant must build outcome measures into the proposed new training tools to demonstrate effectiveness. Virtual reality scenarios should be customizable for the various environments in which officers currently operate (e.g., roadways, subways, shopping centers, schools, homes) and include modeling of physical barriers, environmental/weather changes, and other situational factors that result in crisis confrontations. The applicant must describe how this investment will benefit law enforcement agencies and their communities, as well as how the training developed will help officers develop critical judgment, situational awareness, and appropriate response tactics translatable to real-world situations.
- 3. Develop policies and procedures for law enforcement agencies to integrate the new, immersive, virtual reality scenario-based training to allow multiple officers/ persons to simultaneously participate in the training as a means for officers to practice and for community members to experience crisis intervention and deescalation from the perspective of law enforcement. The training should be planned and developed in close partnership with end users including law enforcement, community partners, tactical experts, mental health experts, and other criminal justice and community stakeholders.
- 4. Technology and training should be designed with transferability in mind so that this can be easily used and adapted by law enforcement agencies at little cost. This project seeks to develop a virtual reality training regime to ensure that law enforcement agencies nationwide have access to cutting-edge technology that enhances response with the goal of improved outcomes.

#### **Deliverables**

Applicants must provide details that outline the planning process, development stage, implementation, and sustainment phase for the training program that reflects the objectives above.

- 1. The applicant must outline how the project will be designed, piloted, and delivered, specifically highlighting how the applicant will utilize a fully immersive, multiparticipant virtual reality system customized for law enforcement. The applicant should outline the process for developing the virtual reality training and address the process for conducting a needs assessment, designing training content, identifying and selecting virtual reality platforms, creating the virtual reality environment, and more.
- 2. The applicant must detail the process to design and develop training elements that will engage learners in the virtual reality setting. This includes providing a list of subject matter experts that the applicant will work with to ensure the training is designed to meet the unique needs and experiences of the law enforcement community and to ensure relevant disciplines, such as mental health experts, are represented. The applicant should ensure scalability and applicability of the training for a diverse range of law enforcement audiences, including small, rural, and tribal law enforcement agencies. The focus of training modules/regime should include effective de-escalation while responding to individuals. The applicant should identify key learning points, scenarios, and interactions that will be included in the regime and fully immersive experience.
- 3. Upon development of the virtual reality training, the applicant must identify and pilot the training curriculum in at least three diverse law enforcement agencies. The applicant will work closely with BJA to identify these pilot sites, which should include representation from small, rural, and tribal law enforcement agencies. This phase of the training should include a feedback loop for participants to share an assessment and response to the training with the goal of improving the curriculum for future dissemination. The applicant should also work with these agencies to determine how the agency will incorporate the virtual reality training into existing in-service or academy settings.

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work's results, as discussed in the "Application and Submission Information" section.

#### **Evidence-Based Programs or Practices**

1. Priority Considerations Supporting Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government

In support of this <u>Executive Order</u>, OJP will provide priority consideration when making award decisions to the following:

To receive this consideration, the applicant must describe how the proposed project(s) will address potential racial inequities and contribute to greater access to services and opportunities for communities that have been historically underserved, marginalized, and adversely affected by inequality, and identify how the project design and implementation will specifically incorporate the input or participation of those communities and populations disproportionately impacted by crime, violence, and the criminal justice system overall. Examples addressing this requirement include, but are not limited to, the following: budgeted project planning and/or implementation meetings with community stakeholders representing historically underserved and marginalized communities; outreach and/or public awareness campaigns specifically tailored to historically underserved and marginalized communities to encourage participation in the proposed project(s); budgeted incorporation of members representing historically underserved and marginalized communities in program evaluation, surveys, or other means of project feedback; and partnership with organizations that primarily serve communities that have been historically underserved, marginalized, and adversely affected by inequality.

Applicants that demonstrate that their capabilities and competencies for implementing their proposed project(s) are enhanced because they (or at least one proposed subrecipient that will receive **at least 40%** of the requested award funding, as demonstrated in the Budget Web-Based Form) identify as a *culturally specific* 

organization.

To receive this additional priority consideration, applicants must describe how being a culturally specific organization (or funding the culturally specific subrecipient organization (s)) will enhance their ability to implement the proposed project(s) and should also specify which populations are intended or expected to be served or to have their needs addressed under the proposed project(s).

Culturally specific organizations are defined for the purposes of this solicitation as private nonprofit or tribal organizations whose primary purpose as a whole is to provide culturally specific services to racial and ethnic groups, including, among others, Black people, Hispanic and Latino people, Native American and other Indigenous peoples of North America (including Alaska Native, Eskimo, and Aleut), Asian Americans, Native Hawaiians, and/or Pacific Islanders.

Letters of Support should be signed and then submitted as one separate attachment to the application.

#### **Research and Evaluation Independence and Integrity Statement**

The applicant will upload documentation of its research and evaluation independence and integrity as an attachment in JustGrants. For additional information, see the OJP Grant Application Resource Guide.

#### **Disclosures and Assurances**

The applicant will address the following disclosures and assurances.

#### **Disclosure of Lobbying Activities**

#### **How to Apply**

<u>Registration</u>: Before submitting an application, all applicants must register with the System for Award Management (SAM). You must renew and validate your registration every 12 months. If you do not renew your SAM registration, it will expire. An expired registration can delay or prevent application submission in Grants.gov and JustGrants. Registration and renewal can take up to 10 business days to complete.

<u>Submission</u>: Applications must be submitted to DOJ electronically through a two-step process via Grants.gov and JustGrants.

**Step 1:** After registering with SAM, the applicant must submit the **SF-424** and **SF-LLL** in Grants.gov at <a href="https://www.grants.gov/web/grants/register.html">https://www.grants.gov/web/grants/register.html</a> by the Grants.gov deadline. **Submit the SF-424 and SF-LLL as early as possible, but no later than 48 hours before the Grants.gov deadline.** If an applicant fails to submit in Grants.gov, they will be unable to apply in JustGrants.

**Step 2:** The applicant must then submit the **full application**, including attachments, in JustGrants at JustGrants.usdoi.gov by the JustGrants deadline.

Within 24 hours after receipt of confirmation emails from Grants.gov, the individual in Section 8F of the SF-424 will receive an email from <a href="DIAMD-NoReply@usdoj.gov">DIAMD-NoReply@usdoj.gov</a> with instructions on how to create a JustGrants account. Register the Entity Administrator and the Application Submitter with JustGrants as early as possible but no later than 48-72 hours before the JustGrants deadline. Once registered in JustGrants, the Application Submitter will receive an emailed link to complete the rest of the application in JustGrants. The Entity Administrator also will need to log into JustGrants to review and invite the applicant's Authorized Representative(s) before an application can be submitted.

Submit the complete application package in JustGrants at least 24 – 48 hours prior to the JustGrants deadline. Some of the application components will be entered directly into JustGrants, and others will require uploading attached documents. Therefore, applicants will need to allow ample time before the JustGrants deadline to prepare each component. Applicants may save their progress in the system and revise the application as needed prior to hitting the Submit button at the end of the application in JustGrants.

For additional information, see the "How to Apply" section in the <u>OJP Grant Application</u> Resource <u>Guide</u> and the <u>DOJ Application Submission Checklist</u>.

#### **Submission Dates and Time**

The **SF-424 and the SF-LLL** must be submitted in Grants.gov by December 4, 2023 8:59 PM ET

The **full application** must be submitted in JustGrants by December 11, 2023 8:59 PM ET

OJP urges applicants to submit their Grants.gov and JustGrants submissions prior to the due dates with sufficient time to correct any errors and resubmit by the submission deadlines if a rejection notification is received. To be considered timely, the **full application** must be submitted in JustGrants by the JustGrants application deadline. Failure to begin the SAM.gov, Grants.gov, or JustGrants registration process in sufficient time (i.e., waiting until the date identified in this solicitation) is not an acceptable reason for late submission.

#### **Experiencing Unforeseen Technical Issues Preventing Submission of an Application**

OJP will only consider requests to submit an application after the deadline when the applicant can document that a technical issue with a government system prevented application submission.

If an applicant misses a deadline due to unforeseen technical issues with SAM.gov, Grants.gov, or JustGrants, the applicant may request a waiver to submit an application after the deadline. However, the waiver request will not be considered unless it includes a tracking number generated when the applicant contacts the applicable service desks to report technical difficulties. Tracking numbers are generated automatically when an applicant emails the applicable service desks; and for this reason applicants are encouraged to email the appropriate service desk, even if they also intend to call the service desk for phone support. Experiencing wait times for phone support does not relieve the applicant of the responsibility of getting a tracking number.

An applicant experiencing technical difficulties must contact the associated service desk indicated below to report the technical issue and receive a tracking number:

- SAM.gov contact the <u>SAM Help Desk (Federal Service Desk)</u>, Monday Friday from 8 a.m. to 8 p.m. ET at 866-606-8220.
- Grants.gov contact the <u>Grants.gov Customer Support Hotline</u>, 24 hours a day, 7 days a week, except on federal holidays, at 800-518-4726, 606-545-5035, or <u>support@grants.gov</u>.

p.m. ET and Saturday, Sunday, and Federal holidays from 9 a.m. to 5 p.m. ET.

If an applicant has technical issues with SAM.gov or Grants.gov, the applicant must contact the OJP Response Center at <a href="mailto:grants@ncjrs.gov">grants@ncjrs.gov</a> within **24 hours of the**Grants.gov deadline to request approval to submit after the deadline.

If an applicant has technical issues with JustGrants that prevent application submission by the deadline, the applicant must contact the OJP Response Center at <a href="mailto:grants@ncjrs.gov">grants@ncjrs.gov</a> within 24 hours of the JustGrants deadline to request approval to submit after the deadline.

Waiver requests sent to the OJP Response Center must -

- describe the technical difficulties experienced,
- include a timeline of the applicant's submission efforts (e.g., date and time the error occurred, date and time of actions taken to resolve the issue and resubmit; and date and time support representatives responded),
- include an attachment of the complete grant application and all the required documentation and materials,
- include the applicant's Unique Entity Identifier (UEI), and
- include any SAM.gov, Grants.gov, and JustGrants Service Desk tracking numbers documenting the technical issue.

OJP will review each waiver request and the required supporting documentation and notify the applicant whether the request for late submission has been approved or denied. An applicant that does not provide documentation of a technical issue or that does not submit a waiver request within the required time period will be denied.

For more details on the waiver process, OJP encourages applicants to review the "Experiencing Unforeseen Technical Issues" section in the OJP Grant Application Resource Guide.

Application Review Information

#### **Review Criteria**

#### **Merit Review Criteria**

Applications that meet the basic minimum requirements will be evaluated by peer reviewers on how the proposed project/program addresses the following criteria:

- 1. Statement of the Problem/Description of the Issue (5%) evaluate the applicant's understanding of the program/issue to be addressed.
- 2. Project Design and Implementation (40%)- evaluate the adequacy of the proposal,

including the goals, objectives, timelines, milestones, and deliverables.

- 3. Capabilities and Competencies (30%) evaluate the applicant's administrative and technical capacity to successfully accomplish the goals and objectives.
- 4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (5%) evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
- 5. Budget (20%) evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

#### Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities ( specifically including, but not limited to, those priority areas already mentioned, if applicable), available funding, past performance, and the extent to which the Budget Web-Based form accurately explains project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

#### **Review Process**

Applications submitted under this solicitation that meet the basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant entity. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record of performance, integrity, and business ethics, OJP checks whether the applicant entity is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant entity that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important Note on FAPIIS:** An applicant may review and comment on any information about its organization that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant entity.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.
